(b) Memo from AD/ORR to the DCI, 15 Aug. 1950,

(c) [redacted]

1. Reference (a), supported and augmented by reference (b),
requested the transfer of [redacted] to
ORR.

25X1

2. I approve the findings of COMPS (copy attached) that the
request for transfer should be denied because:

a. The factor motivating the transfer is based on an
erroneous assumption that the duties and activities being
conducted presently [redacted] and
those to be undertaken by the Psychological Intelligence
Unit in ORR are parts of the same function. The central
service now performed [redacted] is
a specialized category of collection involving the process
of selection and factual analysis to make the products more
useful and more easily adapted by the intelligence estimators
in ORR.

b. The benefits functionally and organizationally to
be derived by the retention [redacted]
[redacted] far outweigh any advantages that might be derived
from the requested transfer.

4. This action is not to be interpreted as minimizing in
any manner the importance of the [redacted] function.
